EPS STUNTECH S-SECURE STROLLER CASES

S-SECURE RANGE: Model 055 | Model 069 | Model 081

Overview:

The EPS STUNTECH S-SECURE Stroller Case Range combines the practicality and discreet appearance of a premium moulded polypropylene case with an integrated non-lethal high-voltage shock deterrent and electronic alarm system.

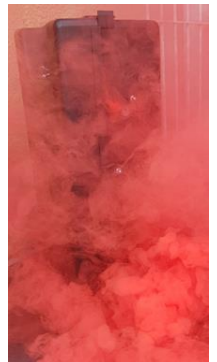

Designed for the secure transportation of cash, valuables, ATM cassettes and other high-value items, the S-SECURE range provides an additional active layer of protection for banks, cash-in-transit and contract security organizations, corporate users and other authorized applications.

Features:

- Premium Samsonite Stroller Case with robust moulded polypropylene construction and a professional, inconspicuous appearance.
- Three case sizes to accommodate different transportation requirements:
Model 055: 55 × 40 × 20 cm | Approx. 2.9 Kg / Model 069: 69 × 49 × 29 cm | Approx. 4.1 kg
Model 081: 81 × 55 × 35 cm | Approx. 5.3 kg
- Integrated non-lethal shock deterrent incorporated into the carry handle, telescopic handle and external casing.
- Up to 130,000 V shock output engineered as an effective non-lethal deterrent.
- Micro RC coded long-range remote activation with an operating range of approximately 100 metres+.
- 125 dB high-intensity alarm designed to immediately attract attention when activated.
- High-capacity rechargeable battery pack of minimum 1000 mAh with fast-charge capability for extended operational use.
- Combination lock for securing the case contents.
- Removable electronic control module for simplified shipping, servicing and cost-effective after-sales maintenance.

Optional Features:

- Tracking Compartment with Concealed tracking device and web-based monitoring and support.
- Dual-activation button with safety trigger for optional external colour smoke-dye deployment.
- External colour smoke-dye option for enhanced security identification and incident response.

BUILT FOR ACTIVE SECURITY- The S-SECURE system is designed to provide more than conventional physical case security. Its integrated electronic protection creates an active deterrent against unauthorised handling or attempted theft, while maintaining the discreet appearance and mobility of a conventional wheeled case. **12 MONTH MANUFACTURING WARRANTY**
